

## **Image Analysis SSY095**

How to write a project report ?

The project report should consist of minimum 4 (four) A4 pages and contain the following parts:

**Project title**

**Investigators' names**

**Abstract** (optional)

### **1. INTRODUCTION**

(project background , medical background)

What kind of problem did you (try to) solve? Why?

### **2. MATERIAL AND METHODS**

Description of your data (where data comes from, how recorded, format etc.).

A summary of the methods and algorithms. Describe your possible modifications.

### **3. RESULTS**

(images, diagrams, tables etc., comments)

### **4. CONCLUSIONS** (if any, future, how to improve, next step(s) ).

### **5. REFERENCES** (i.e. bibliography: books, articles, www-links, databases,...)

### **6. APPENDIX:** Program code (source & executable, ready to run).
